

# Employee COVID-19 Mandatory Outbreak Testing

All facility staff must participate in COVID-19 Mandatory Outbreak Testing, unless you have tested positive within the last 3 months.

## Wednesday, October 7, 2020

### On-Site: 10am – 2pm

Highly recommend attending on-site testing timeframe.

We respectfully request that all non-clinical staff report for testing after 12:45 pm. This will allow clinical staff to get through the line and report back to the floor in a timely manner.

If unable to attend County on-site testing, you may choose to be tested at an off-site facility.

### Off-Site 24-Hour Timeframe:

#### Wednesday, October 7, 2020

#### 12:01 am – 11:59 pm

Examples: PCP, ConvenientMD, ClearChoiceMD, Minute Clinic at CVS Pharmacy.

May require call ahead or online scheduling for an appointment.

If testing off-site you **MUST** notify Human Resources prior to testing date and provide documentation that test was performed prior to returning to your next scheduled shift. You must also provide Human Resources with test results as soon as they are available.

Please refer to the Policy.
